Neighbors: The West Towson Neighborhood Ass'n (WTNA) today sent [an email](#) to Councilman David Marks, supporting our request for more information about the proposed Mission Helper project, the RRLRAIA's position as set forth in its May 11 letter, and more. A copy of that email is [here](#) and at www.mhneighbors.com. This is another very positive development, for we now have both relevant neighborhood associations on our side. Thanks to WTNA president Darwin Holder and board member Mike Ertel for giving us the opportunity to be heard and supporting our position.

The next step should be a response to our April 19 letter from the developer. As always, feel free to call or email to discuss.
